[Captivating your Class](#) May 04 2020 This essential handbook offers practical approaches to teaching in an Advanced Level (A Level) classroom, this includes AS, A2 and all level 3 equivalents as well as the International Baccalaureate and other post-16 qualifications. It is primarily designed to give confidence to teachers to teach in a way that encourages students to enjoy learning in lessons in a purposeful way. It will build on theoretical work, where appropriate, to help reflection and planning by individual teachers for their specific subjects and classes. The references section will guide teachers to further reading for each of the chapters if they wish to explore the theory in greater depth. The key messages of the book are twofold. Firstly, personalised planning of lessons is essential, generic lesson plans will not work at A Level and teachers will need to be aware of the personalities and individual strengths and weaknesses of the students in their class to be able to structure and develop their learning accordingly. Secondly the strategies will be successful when they have been developed in relation to the subject and consolidated to secure subject knowledge and understanding. To this end many suggestions are exemplified through a range of subject examples for both AS and A2. This comprehensive guide is a must for those teaching anyone post-16.

**The Online Tutor's Toolkit** Aug 07 2020 This book contains everything you need to know to get started as an online tutor. It covers the essentials of tutoring, choosing your tech and software, managing homework, and getting set up alongside detailed guidance focusing on each level of tuition. With techniques developed through research and first-hand experience, the author explains exactly how to turn existing subject knowledge into effective tutoring for students of all ages in a variety of subjects. Divided into two parts, the first answers the logistical questions facing every new tutor such as: what equipment do I need? Where can I apply? How much should I charge? The second half focuses on how to tutor different age groups effectively and subject-specific areas including English, Maths, and Science, as well as the author's tried-and-tested '5 step' process for choosing a subject, assessing a student, and planning their first lessons. There is also information on how to support students writing personal statements and applying to university, as well as teaching English as a Second Language. Alongside tailored, up-to-date information on available software, hardware, exam specifications, and the online tutoring marketplace, the book contains a 10-week timetable of adaptable lesson plans so new tutors can get started immediately. Finally, there are two additional downloadable chapters which expand on less common subjects and another which includes a digital download of every resource from the book. With suggestions for resources, homework, and timings to support you at every stage, this is an essential read for anyone wanting to succeed as an online tutor.

**100 Ideas for Secondary Teachers: Interventions** Nov 09 2020 100 Ideas for Secondary Teachers: Interventions focuses on low-effort, high-impact interventions that can be used at Key Stages 3 to 5. It includes tips for improving academic performance, ways of raising standards of teaching and learning, and plans for promoting a rich culture for learning and high expectations. This dip-in-and-out guide shares a wide range of practical and manageable solutions to improve interventions in the classroom. As a teacher you are pushed every year to improve the results of your learners but no one ever really tells you how to do it! Regrettably, there are no quick fixes or silver bullets to unlocking the potential of students and this can be challenging at the best of times. However, assistant headteacher Laura O'Leary presents 100 ideas, techniques and activities for effective interventions that can be used throughout the school year to raise attainment and improve the progress of every student. This invaluable resource focuses on specific areas for intervention including common barriers to achievement, such as behaviour, attendance and organisational skills, supporting key cohorts (pupil premium and students with SEND and EAL), and literacy and numeracy skills. There are even ideas for ensuring that students are revision and exam ready. 100 Ideas for Secondary Teachers: Interventions is ideal for all secondary teachers, leaders, SENCOs and teaching assistants who wish to plan effective interventions that will enable young people to succeed.

**researchED Guide to Assessment** Aug 19 2021 A teacher's job is to create an environment where our students' engagement in learning proceeds towards an intended direction. In order for this to occur, we must form a bridge between the teaching of material in the classroom and how the learning of that information is being processed and manipulated by our students. The only way we can do this effectively is through the process of assessment. Recent theoretical history on how to effectively establish and implement assessment strategies into policy has caused much confusion; it is high time to consider how assessment, marking and feedback have changed over the years so that conversations about how best to move forward can begin. In this researchED Guide to Assessment, Sarah Donarski brings together chapters by Dylan Wiliam, Tom Sherrington, Alison Peacock and many others to consider the debates, critique the strategies and find solutions that not only better the

progress of pupils but also assist the wellbeing and manageability of workload for staff.
