*Transanal Minimally Invasive Surgery (TAMIS) and Transanal Total Mesorectal Excision (taTME)* Nov 29 2019 This book captures cornerstone developments in a new body of knowledge and provides an expert resource on a "hot topic" in rectal surgery. Transanal minimally invasive surgery (TAMIS) was designed for local excision of select rectal neoplasms, however soon it became realized that the TAMIS technique could

be used for applications beyond local excision, most notably for transanal total mesorectal excision (taTME). This new operative technique has revolutionized our approach to the distal rectum by allowing for improved access, especially in obese male patients with an android pelvis, and by minimizing abdominal wall access trauma. The endpoints of improved oncologic resection, as defined by mesorectal envelope completeness, negative circumferential resection margins, and negative distal margin, are assessed. This book details controversies, pitfalls, and future directions of taTME and TAMIS. Chapters are authored by those on the forefront of innovation with TAMIS and taTME, and each is considered an authority on the topic. Transanal Minimally Invasive Surgery (TAMIS) and Transanal Total Mesorectal Excision (taTME) is a must-have reference for surgeons who are performing this operation and fellows in training who want to completely understand the various nuances of TAMIS and taTME.

**The Prince of Light and the Age of Darkness** Jun 24 2019 To say events happened, transpired, unfolded a long time ago and in a place far, far away, as go the subtitles in the opening of a popular film set in outer space, does little to lessen the force of their impact; does not remove the deep taint of blood which stains a personal and collective human tragedy; does not dispel the clawing cling of wrong and unfairness endured by a man - a prince - and his legacy. The balm of closure eludes it - denied - and the events, the impact, the tragedy, the wrong remain. Some doings of Man, in certain crucial moments of Mankind, the inexorable march of time will not dismiss. These moments, these doings, are the proverbial pebbles dropped with gentle precision or heaved with reckless havoc into the equally proverbial still waters, which then break

and ripple, fracture and splay, and can never lay quiet and peaceful again. Crimes can serve as such events; fallible affairs of strained human hearts; their souls suffering the crucible of the niche moments between ethereal stillness and the ecstasy of havoc. Humankind's history records few of them, inevitably enveloped by the reigns of Man's imagination which harness a beast called legend with the power to grant such crimes, such moments, the everlasting power of myth - a beast to the first. And this second beast holds the secret to transcend time from its recesses to its fringes, and back again. Reverberating in the lore of human consciousness and enduring forever. Lastly, to condemn a man for the happenstance of the crimes of history; to capriciously, simplistically christen victim as villain in such afore-referenced events, and villains as victims - or to unquestioningly accept the veracity of such skewed, self-serving tales that have engendered such misplaced labels, taking them for truth - is to err, to misunderstand, to judge and condemn without the penetrating light of fact. Deceived by the beasts of myth and legend, you known only by the name given to him in cinema. A name tragically, horribly unworthy of he, the best of all men down through all eons of time, brazenly stained and smeared and ridiculed in the past century of theatrical farce. You know him as - Dracula. To the small extent this trumped-up legacy of crime and this sham of condemned posterity matters contemporarily, as events lost in history and decayed through time continue to ripple imperceptibly... well, I leave it to your good graces to decide.
