**Unbattled Fears: Reckoning the National Security** May 28 2022 Strategic thinking has not been part of our national discourse. Till the end of 20th century, there were a very few public or private think tanks discussing the challenges our nation faced. There was no private news channel till 1999 and when they started, they went about doing their news business. Lack of strategic thinking was apparent during 1962 war with China, when we had clear indications of heinous moves and design of China. The Indian Army had submitted reports highlighting the Chinese threat but it all fell on deaf ears. The Prime Minister of the time thumped the table and said, "It is not the job of Commander-in-Chief to tell the Government who will attack India. China will never attack us, rather China would come to our rescue if needed. You should concentrate on Pakistan!" Rest is history. Successive governments did not learn the lesson. Strategic and National Security matters were still prerogative of government institutions. Till 2000, there were a few government funded or private think tanks (United Service Institution of India, Indian Direct Selling Association, Indian Defence Review etc.) working on this vital subject. New think tanks came up but their reach was limited. There appears to be much more interest in masses now than what it was 20 years ago. This book is a compilation of articles written on different subjects. It is divided in four sections – every section dealing with a different subject. Readers should consider the backdrop date given at the first page of every chapter. This will help putting things in the right perspective.

Ruling Dynasties of Independent India - Volume 1 Sep 27 2019 This book is written to give an overall idea of dynastic politics in India, keeping in mind that a citizen of India should know more about the politicians who are in the government and form policies and so on to take the country in the proper direction. Even if there are two related members, it is considered as dynasty and is included in this book. Wherever possible, family trees, as well as the assets of our politicians, are shown. It was natural to start with the Nehru Gandhi family, being one of the largest and longest-ruling families at the helm of all affairs. Then state wise, the families are chosen and the account is

presented. As the content is extensive, the book is published in two volumes. States are chosen alphabetically. So even if Nehru Gandhi family is in Volume 1, Tamilnadu, Telangana, Uttar Pradesh are in Volume 2. Early rulers in Indian history used to hand over the throne to their sons and then to the next generations for generations till some significant event upset the process, mostly conspiracies by persons like very close aides of the king or a revolt. Similar lines were followed even during our democracy, passing on the rule to the next generation, which gave rise to dynastic rule. Indian politics has witnessed a large spectrum of politicians from various fields. Initially, it consisted mainly of leaders from the field of law. Now, we find that we have eminent personalities from sports fields, actors, actresses, superstars from the silver screen. The literary field is no exception; we have writers, poets, and so on. Economists find a special place in the political arena. Politics does not shun even criminals or a few dacoits who then turned to politics after surrendering. Businessmen, kings or princes from princely states, as the British decided to call them, are also found here. We have learned people in politics as also the illiterate people (angutha chhaap) who learned to sign only after assuming the office on being elected. People are interested in knowing the assets of politicians. This point is covered by using the asset declaration given by the politicians at the time of the election.
