Cutty Sark Dec 11 2020 An updated and expanded edition to celebrate the 150th anniversary of this iconic ship. The narrative spans her construction at Dumbarton in 1869; her famous tea voyages as well as those with other cargoes; her career under a Portuguese flag; her subsequent return to the Thames, Greenwich; and the dramatic fire, painstaking restoration and glorious reopening in April 2012. The book has been developed from the outset with the Cutty Sark Trust and takes the form of a chronological career narrative but also presents detailed features on crew accounts, log entries, pieces on seamanship, ports and cargoes and broader tall ship culture as well as an opportunity to focus on artifacts and the fittings of the ship. This unique opportunity allows the first publication of specially commissioned photography created as part of, and subsequent to, the clipper's restoration as well as the findings of resulting research.

Maatsuyker Through Our Eyes Aug 26 2019 We had seen the island from a distance, read as much as we could about the island's history and heard about all the grass. We knew the scenery would be spectacular, the Southern Ocean swells an awesome sight, the wind a constant and that we would be alone. We did think the cold and wind might get us down at times but never having been on Maatsuyker, we couldn't quite imagine what it might be like. We just knew it would be different - which is in part, why we wanted to go. We went without any real expectations or imaginings, and found it was wild, spectacular and grand. We also found calm, peacefulness and joy. Island life was physically hard compared to home, but we thrived in that environment, living moment to moment. Never alone, the island birds were our companions and the seals' antics made us feel part of a family, bringing our own family closer; and through our care the lighthouse and island become our friends too.
