*Celebrity, Inc.* Aug 31 2022

From \$10,000 tweets to making money in the afterlife, a recovering gossip columnist explores the business lessons that power the Hollywood Industrial Complex Why do celebrities get paid so much more than regular people to do a job that seems to afford them the same amount of leisure time as most retirees? What do Bush-era economics have to do with the rise of Kim Kardashian? How do the laws of supply and demand explain why the stars of Teen Mom are on the cover of Us Weekly? And how was the sale of Brad Pitt and Angelina Jolie's baby pictures a little like a street drug deal? After a decade spent toiling as an entertainment journalist and gossip columnist, Jo Piazza asks the hard questions about the business behind celebrity. Make no mistake: Celebrity is

an industry. Never in the course of human history has the market for celebrities been as saturated as it is today. Nearly every day most Americans will consume something a celebrity is selling--a fragrance, a sneaker, a song, a movie, a show, a tweet, or a photo in a magazine. With the benefits of Piazza's unique access to the celebrity market, *Celebrity, Inc.* explains in detail what generates cash for the industry and what drains value faster than a starlet downs champagne--in twelve fascinating case studies that tackle celebrities the way industry analysts would dissect any consumer brand.

comedians like Betty White and Phyllis Diller, singers like Nat King Cole and Bing Crosby, and even religious leaders including Billy Graham, the list of people who have written Melvin Bagley throughout his career as an optometrist reads like a Who's Who of famous people in recent decades. An optometrist by trade, Bagley started writing well-known individuals many years ago, asking them if he could have a pair of their glasses to put in his museum. Over a hundred pairs later, he has amassed a collection of not only spectacles, but personal letters from those who most of us only know from newspapers, television, and the movies. With each reprinted letter, readers will enjoy reading a brief biography of the letter writer, giving a glimpse into the personality behind the pen. Keep an eye out; you never know when it's time for another Celebrity Sighting!

Famous People You Might Meet in Eternity Feb 10 2021

When former sportscaster Tony Powers went into surgery for a

minor knee repair, he had no idea he would make a side trip to eternity. Once the pretty nurse placed the anesthesia mask over his face and told him to take a few deep breaths, Tony was blasted into the heavens like an astronaut aboard a rocket at Cape Canaveral. He couldn't believe how beautiful it was. He saw a cacophony of rainbow colors and a brilliant dazzling white cloud in the distance. He noticed millions of people of all ages, colors, and creeds as they walked toward the cloud on their way to judgment day. It wasn't long before Tony recognized famous actors, actresses, world leaders, historical figures, coaches, and athletes on their way to judgment. Was all this just an anesthesia-induced dream or a figment of his imagination? Had he been carried into the heavens suspended between life and death? Had Tony been thrust into the third dimension known as the Twilight Zone? Had Tony Powers crossed into eternity?

*Letter To My Younger Self* Jul 26 2019 A Sunday Times Book of the Year All royalties from sales of this book go to The Big Issue If you could write a letter to your younger self, what would it say? Over 10 years ago, The Big Issue began to ask some of the best-known, most interesting and most successful figures in entertainment, politics, food, sport and business to give advice, offer hope and share a few jokes with their younger selves. They opened up, in ways they never had, to interviewer Jane Graham, reflecting on their lives and themselves with affection, sympathy and sometimes disbelief. This collection of 100 of the most incredible letters includes Paul McCartney on how he found inspiration, Olivia Colman on overcoming confidence problems, Mo Farah on the importance of losing, Arianna

Huffington on knowing your motivations, Jamie Oliver on trusting your instinct and many, many more, including Rod Stewart, Margaret Atwood, Buzz Aldrin, David Cameron, Eddie Izzard, Desmond Tutu, Neil Gaiman, Ruby Wax, Ranulph Fiennes, Tracey Emin, Ian McEwan, Michael Palin, Melanie C, Tim Peake, Dionne Warwick and Ewan McGregor. Letter to My Younger Self is a revelatory and profound exploration into the wit and wisdom that age brings, and of the unique insights that looking back can reveal. Proceeds from the sales of this book go to The Big Issue to continue their work dismantling poverty and promoting social justice. "A truly wonderful book ... a gateway to intelligent, learned and genuinely inspiring stories, moments and people ... We would highly recommend it ... It's a fab cause and put together seamlessly." “Conceptually adventurous yet  
full of feeling . . . smart,  
thought-provoking, and  
thoroughly enjoyable.”

—Charles Yu, author of *Interior  
Chinatown* Wherever Hel looks,  
New York City is both  
reassuringly familiar and  
terribly wrong. As one of the  
thousands who fled the  
outbreak of nuclear war in an  
alternate United States—an  
alternate timeline, somewhere  
across the multiverse—she

finds herself living as a refugee  
in our own not-so-parallel New  
York. The slang and technology  
are foreign to her, the politics  
and art unrecognizable. While  
others, like her partner,  
Vikram, attempt to assimilate,  
Hel refuses to reclaim her  
former career or create a new  
life. Instead, she obsessively  
rereads Vikram’s copy of *The  
Pyronauts*—a science fiction  
masterwork in her world that  
now only exists as a single  
flimsy paperback—and  
becomes determined to create  
a museum dedicated to  
preserving the remaining  
artifacts and memories of her  
vanished culture. But the  
refugees are unwelcome and  
Hel’s efforts are met with  
either indifference or hostility.  
And when the only copy of *The  
Pyronauts* goes missing, Hel  
must decide how far she is  
willing to go to recover it and  
finally face her own anger,  
guilt, and grief over what she  
has truly lost. With *Famous  
Men Who Never Lived*, K Chess  
has created a compelling and  
inventive speculative work on  
what home means to those who

**I So Don't Do Famous** Jul 18 2021 Having a boyfriend in eighth grade makes me kind of a celebrity at school. I'm also known throughout the spirit world--I've helped my ghost mom solve some tough cases. And now I'm on my biggest one of all . . . in Hollywood! Everyone is so famous here. But there's no time for stargazing. Somehow I managed to stumble upon a mystery right on Hollywood Boulevard. Homes of young celebs are being burglarized, and it's up to me to figure out who's behind the million dollar crimes--and prove it to the Beverly Hills police. And to complicate things? The ghost of a teen star is dying to help me. One thing you never hear

in the land of glitz & glamour?  
I so don't do famous.

**Famous People** Oct 01 2022

This fresh, smart novel in the guise of a celebrity memoir probes the inner life of a mega-famous pop star Why I really decided to write this book now is like, the world seems to be spinning out of control, you know? People are so mad at each other. People are taking life so seriously. People are losing hope. And I think, honestly, it's because people are so rooted in their own particular spot in the universe. But something happens to you when you're touring all around the world all the time.

Something happens to you when you visit some country you've never heard of and you see your face on the side of a bus being used to sell some soda that you didn't even know existed, and you call up your people and you're like: Yo, did we agree to this? And they tell you: Yes, it was part of an overall deal with East Asia. Something happens: You realize how tiny you are. Honestly, that's what amazes

me the most with a lot of the people I meet: they think they're so big. They think, ultimately, that the universe revolves around them. And I'm beginning to think that it's only when you live a life like mine—it's only when you're in a position where you don't even really own yourself, when you can't even really say that you're a citizen of any particular country—that you realize that we're all just tiny pieces of cosmic dust floating through the void until we disappear forever and we're never heard from again. So begins the life story of our uber famous twenty-two year old narrator. A teen idol since he was twelve, when a video of him singing the national anthem went viral, his star has only risen since. Now, haunted by the suicide of his manager-father in the wake of their painful parting, unsettled by the very different paths he and his his teenage love (and girl pop-star counterpart) "Mandy" have taken, and increasingly aware that he has signed on to something he has little control,

over, he begins to parse the divide that separates him from the "normal people" of the world, and enlighten the rest of us along the way. Reading these biographies can be inspiring for anybody, regardless of his or her field. Often, reading a book about someone who succeeded against the odds is all it takes to inspire your own feats of greatness.

**Fifty Famous People** Nov 09 2020 Fifty Famous People. A Book of Short Stories. By James Baldwin. One of the best things to be said of the stories in this volume is that, although they are not biographical, they are

about real persons who actually lived and performed their parts in the great drama of the world's history. Some of these persons were more famous than others, yet all have left enduring "footprints on the sands of time" and their names will not cease to be remembered. In each of the stories there is a basis of truth and an ethical lesson which cannot fail to have a wholesome influence; and each possesses elements of interest which, it is believed, will go far towards proving the fallibility of the doctrine that children find delight only in tales of the imaginative and unreal. The fact that there are a few more than fifty famous people mentioned in the volume may be credited to the author's wish to give good measure.

### **Childhoods of Famous**

**People** Apr 26 2022 We have all heard of famous people like Albert Einstein, Nikola Tesla, Cleopatra, Wolfgang Amadeus Mozart, and William Shakespeare. But what do we know about their childhoods? Play a game and guess which

celebrity is hidden on each spread. Clues from their childhood will help you to discover them! There are twenty-five celebrities waiting for you to uncover them.

Rulers, inventors, scientists, musicians, and many others lead you through their childhoods and show you what life was like back then, what they liked to play with, and what their interests were—but they will keep their names to themselves. Each character gives hints to help you figure out who they are. Then lift the flap and find out whether you guessed correctly.

**1000 Years of Famous People** Jan 30 2020 This is a comprehensive look at the famous and the notorious, their achievements and the legacies they have left humankind. Organized by theme - explorers, inventors, leaders, artists, sportspeople, musicians, politicians, scientists, writers, reformers etc - each chapter looks at the famous figures pre-1000 AD to put the rest of the chapter in its historical context.

100 People Who Made History  
May 04 2020 There are nearly 7 billion people in the world today. We are living longer, healthier, and better lives than anyone who has gone before. And this is the result of a whole chain of people who have invented or discovered something that has changed our world. Where would we be without inventors, philosophers, economists, politicians, explorers, and other "ideas" people? Some of our historical heroes were lone geniuses but many were influenced by other great thinkers and ideas. There would be no Facebook without the internet-and no internet with computers. And there could be no computers without the great mathematicians and

philosophers of ancient times. So who's the Genius-Mark Zuckerberg, or Pythagoras? We think it's both. This is why every spread features a panel called "They couldn't have done it without...", revealing the people who made earlier contributions to the cause. With chapters on medicine and food processes, entertainment and culture, there's something in 100 People Who Made History for everyone. Full of true-life stories and famous celebs, 100 People proves that history can be exciting and relevant.
