Statistical Machine Learning for Human Behaviour Analysis Nov 23 2021 This Special Issue focused on novel vision-based approaches, mainly related to computer vision and machine learning, for the automatic analysis of human behaviour. We solicited submissions on the following topics: information theory-based pattern classification, biometric recognition, multimodal human analysis, low resolution human activity analysis, face analysis, abnormal behaviour analysis, unsupervised human analysis scenarios, 3D/4D human pose and shape estimation, human analysis in virtual/augmented reality, affective computing, social signal processing, personality computing, activity recognition, human tracking in the wild, and application of information-theoretic concepts for human behaviour

analysis. In the end, 15 papers were accepted for this special issue. These papers, that are reviewed in this editorial, analyse human behaviour from the aforementioned perspectives, defining in most of the cases the state of the art in their corresponding field.

British Destroyers & Frigates Aug 09 2020 Since the Second World War the old categories of destroyer and frigate have tended to merge, a process that this book traces back to the radically different 'Tribal' class destroyers of 1936. It deals with the development of all the modern destroyer classes that fought the war, looks at the emergency programmes that produced vast numbers of trade protection vessels - sloops, corvettes and frigates - then analyses the pressures that shaped the post-war fleet, and continued to dominate design down to recent years. Written by America's leading authority, it is an objective but sympathetic view of the difficult economic and political environment in which British designers had to work, and benefits from the author's ability to compare and contrast the US Navy's experience. Norman Friedman is renowned for his ability to explain the policy and strategy changes

that drive design decisions, and his latest book uses previously unpublished material to draw a new and convincing picture of British naval policy over the previous seventy years and more. Hugely successful with enthusiasts and professionals alike from its first publication in 2006, this is the book's third edition.

Prosecutorial Misconduct: Law, Procedure, Forms 4th Edition May 30 2022 We've all encountered prosecutors

who are only interested in improving their "conviction scorecard" and regularly tread on the Bill of Rights in the name of their own ambition. The Duke Lacrosse Team case and the recently dismissed prosecution of U.S. Senator Ted Stevens are merely emblematic of the kind of prosecutorial abuses that have long plagued our system of criminal justice. In the wake of scandals such as Enron, KMPG, ImClone and WorldCom, lawmakers continue to give federal and state prosecutors expanded, unbridled power to investigate and prosecute, fueling this ambition and encouraging prosecutorial abuse. Now, Philadelphia lawyer Joseph F. Lawless, a former Assistant District Attorney, Special Prosecutor and active criminal defense lawyer, gives you the benefit of his 32 years of experience to help protect your clients from prosecutorial misconduct with this authoritative and practical work. Considered the definitive treatise on the subject, this newest edition of *Prosecutorial Misconduct* provides a comprehensive and scholarly analysis of every prosecutorial abuse, from the initiation of a criminal investigation through the appeal and post-conviction stages for both federal and state jurisdictions. Unlike other works, however, *Prosecutorial Misconduct* also provides the defense bar with proven battle plans. Included in this edition is a complete collection of motions, briefs and arguments from actual cases handled by noted defense lawyers such as David Kendall, Gerry Spence, Billy Martin, James Brosnahan, John Cline, Michael Tigar and Joe Lawless, such as: • the Jayson Williams murder case; • the Clinton/Lewinsky grand jury probe; • the Wen Ho Lee espionage prosecution; • the prosecution of "American Taliban" John Philip Walker Lindh; • the Oklahoma City Bombing trial, *United States v. Terry Lynn Nichols*; • the "Buddhist Temple" fundraising case, *United States v. Maria Hsia*; • the Linda Tripp wiretap investigation; • the Doug Gilmore NHL extortion case. This newest edition also examines: • the Hyde Amendment; • the Principles of Federal Prosecution for Business Organizations; • the White Collar Crime Penalty Enhancement Act. *Prosecutorial Misconduct* sets out innovative, aggressive strategies developed in the crossfire of the courtroom by accomplished, successful defense lawyers, and is a must for every defense lawyer's library.
