[Overcoming the Neutral Zone Trap](#) Oct 23 2021 "This engaging interdisciplinary collection seeks to shed light on narratives and research that challenge hockey's norms, push its boundaries, and provide new ways of conceptualizing its role in North American culture. The volume's editors use the metaphor of the neutral zone trap to explore how traditional ideologies and practices within the sport have contributed to exclusion and the misperception of various ways of existing in its community. The book includes both personal and scholarly accounts of agents of change--people, ideas, and events--that confront the challenges associated with making hockey a more progressive space. By peeling back assumptions and common understandings of hockey culture, *Overcoming the Neutral Zone Trap* opens up critical discussions of previously underexplored topics as they relate to the women's game, Indigenous participation, viable career pathways, masculine identities, hockey parents, mental health, and social media. Fans and experts alike will find much in these pages to deepen their understanding of hockey's social implications. [The Literary History of Alberta Volume Two](#) Aug 21 2021 In this, the companion to the landmark volume *The Literary History of Alberta, Volume One: From Writing-on-Stone to World War Two*, George Melnyk examines Alberta literature in the second half of the twentieth century. At last, Melnyk argues, Alberta writers have found their voice—and their accomplishments have been remarkable. The contradictory landscape, the stereotypes of the Indian, the Mountie, and the Cowboy, and the language of the Other, speaking from the margins—these elements all left their impressions on the consciousness of early Alberta. But writers in the last few decades have turned this inheritance to their advantage, to create compelling stories about this place and its people. Today, Melnyk discovers, Alberta writers can appreciate not only this achievement, but also its essential source: the symbolic communication of *Writing-on-Stone*. *The Literary History of Alberta, Volume Two* extends the study of Alberta's cultural history to the present day. It is a vital text for anyone interested in Alberta's vibrant literary culture.

Found in Alberta Apr 16 2021 Found in Alberta: Environmental Themes for the Anthropocene is a collection of essays about the natural environment in a province rich in natural resources and aggressive in development goals. This is a casebook on Alberta from which emerges a far wider set of implications for North America and for the biosphere in general. The writers come from an array of disciplinary backgrounds within the environmental humanities. The essays examine the oil/tar sands, climate change, provincial government policy, food production, industry practices, legal frameworks, wilderness spaces, hunting, Indigenous perspectives, and nuclear power. Contributions from an ecocritical perspective provide insight into environmentally themed poetry, photography, and biography. Since the actions of Alberta's industries and government are currently at the heart of a global environmental debate, this collection is valuable to those wishing to understand the natural and commercial forces in play. The Battle of Alberta Sep 29 2019 Alberta has long been a big part of the frantic Canadian hockey scene, and even before Alberta became a province in 1905, the intense hockey rivalry between Calgary and Edmonton was in full swing. Long before the glory days of the '80s, teams from Edmonton and Calgary worked each other over with relish and passion, all the while creating a hockey rivalry unequalled anywhere. In *The Battle of Alberta* the rough-and-tumble relationship between two hockey hotbeds is presented in all its colourful glory. The century-long tussle got its start in 1895 when an all-star team from Calgary journeyed to Edmonton to take on the mighty Thistles and a team of North West Mounted Police pucksters. Calgary came away victorious, Edmonton vowed revenge, and thus began a long procession of battling teams in both cities: the Edmonton Eskimos (the hockey Eskimos featuring the renowned Eddie Shore), the Calgary Tigers, the Edmonton Superiors, the Calgary Bronks, the Edmonton Flyers (with Glenn Hall between the pipes), the Calgary Stampeders, the briefly named Alberta Oilers, the short-lived Calgary Cowboys, the Edmonton Oilers and the Calgary Flames. Great teams, exciting games, masterful players—hockey at its best.

Religious Studies in Alberta Feb 01 2020 This first volume on the "state-of-the-art" in religious studies in Canada offers a description and critique of the field in the colleges, universities, and secondary schools in Alberta. Among the findings: philosophical-theological and textual approaches to the study of religion predominate, to the relative neglect of methodologies employed in fields such as sociology and anthropology; the quality and quantity of published research is significant but focusses on Christian studies; some interdisciplinary study is being carried on and benefits religious studies as well as other fields; religious studies scholars in Alberta have a relatively high public profile, but their exercise of public responsibility is time consuming and can jeopardize career advancement; in view of wide-spread religious illiteracy among students, descriptive courses must not be neglected in favour of analytical ones. An appendix listing courses offered in the schools surveyed concludes the volume.

It provides an inventory of 1775 known vascular plant species- ferns, conifers, and flowering plants - that are native to Alberta, or if non-native, that have become established and grow wild in the province. The Literary History of Alberta Volume One Mar 16 2021 Alberta's contradictory landscape has fired the imaginative energies of writers for centuries. The sweep of the plains, the thrust of the Rockies, and the long roll of the woodlands have left vivid impressions on all of Alberta's writers--both those who passed through Alberta in search of other horizons and those who made it their home. *The Literary History of Alberta* surveys writing in and about Alberta from prehistory to the middle of the twentieth century. It includes profiles of dozens of writers (from the earnestly intended to the truly gifted) and their texts (from the commercial to the arcane). It reminds us of long-forgotten names and faces, figures who quietly--or not so quietly--wrote the books that underpin Alberta's thriving literary culture today. Melnyk also discusses the institutions that have shaped Alberta's literary culture. *The Literary History of Alberta* is an essential text for any reader interested in the cultural history of western Canada, and a landmark achievement in Alberta's continuing literary history.

He also compares the conversion imagery with that in the Dialogues of Cassiciacum to shed light on the question of two Augustines. Annotation copyrighted by Book News, Inc., Portland, OR
